Service Abstract	
<p>A child and family team is created. Needs are identified on an individual basis. Both formal and informal community resources are assessed to meet the family's needs and obtain their goals. Flexibility is a key component.</p> <p>Each individual family is involved in deciding who is on their team. A family may consist of: immediate family, extended family, friends, neighbors, parent advocates, professionals, county agencies, and any community resource deemed necessary for a successful outcome. The family is an active participant in the team partnership. As the family's needs change, so may the team. This approach focuses on what is working with the family. It builds on an individual's strengths, assets, and skills. It pulls people and community together. A team is created that strives for trust, cooperation, self-worth, and family unity. Each family oversees their own goals and successes.</p>	

Entry and Exit Criteria

Entry to the program is based on referral from the beneficiary County, or State Adoptions and the family's willingness to participate in Wraparound program services. Exiting the program is based on the reduction of the level of functional impairment and/or the determination that the client is no longer at risk for a higher level of care.

Referral, Transition, and Discharge

All referral, transition, and discharge decisions are the responsibility of the services provider and applicable treatment team(s). Referrals will be made and documented throughout treatment, considering clients' and families' abilities and preferences. Transition planning will occur throughout the course of treatment, be discussed with clients and applicable treatment team(s) and be documented. Transition plan will include review of clients' wellbeing, gains achieved, and client and family strengths. Discharge paperwork and client history reports will be completed and reviewed at the end of treatment with clients and caretaker's as available and appropriate.
